

TO AID IN WORK OF GEOLOGIZING THE ARIZ. COPPERFIELDS

(From Sunday's Daily Miner.)
Richard Tarantous arrived in Kingman from New York Friday and left immediately for the Copperfields camp in the Mineral Park quadrangle about 20 miles north of here. Mr. Tarantous is a mining engineer on the staff of the Arizona Copperfields, Inc., and, under the direction of Consulting Engineer C. S. Herzig, will cooperate with Geologist Beeson and the latter's assistant, D. L. Sawyer, in geologizing the holdings of that company.

Mr. Tarantous has had ripe experience in the mining fields of the Southwest, having been attached to engineering corps at Bisbee, Clifton, Globe and Miami. His latest work was in churning the famous Terlingua quicksilver deposits of west Texas.

JOKESTERS RETURN

MACHINE GUN

EL PASO, Tex., Nov. 21.—The machine gun automobile belonging to the machine gun company of the Thirty-third infantry, which was stolen Saturday night while the military detail in charge was dining in an El Paso restaurant, has been recovered intact. The car showed signs of use, however. It was left standing in a part of town some distance from the spot from which it had been taken.

SCHWAB REVEALS PLAN

TO EMPLOY MORE MEN

BALTIMORE, Nov. 21.—Charles M. Schwab, of the Bethlehem Steel company, who was a guest of the city at a testimonial dinner tonight, announced that plans call for an expenditure of about \$50,000,000 in plant and equipment here. From 15,000 to 20,000 men ultimately will be employed.

The building and construction program for the company, as a whole, Mr. Schwab said, will involve the expenditure of fully \$100,000,000.

Anthony Duffy and Gerald Keenan, of Goldfield, arrived in Oatman yesterday and will remain for some time before visiting Jerome and other Arizona mining camps.

LABOR ORGANIZATION TO JOIN FOR 8-HRS.

BALTIMORE, Nov. 21.—Efforts to effect an affiliation between the American Federation of labor and the railway brotherhoods received a decided impetus today when the federation convention here received speeches by the four representatives of the brotherhoods and President Gompers, of the federation, favoring such action.

Leaders of the organizations tonight were preparing to inaugurate joint fight for better working conditions, particularly for railway workers of all classes and against all compulsory arbitration measures just as though an official affiliation had been perfected.

Both sides entertain high hope that they will be able to gain much during the coming session of congress and in preventing the breaking down of present favorable labor laws by presenting a united front. They believe, too, that official affiliation only awaits certain formal steps to be taken by the brotherhoods at their next convention, to be held some time next year.

Other than to say that they would oppose all sorts of compulsory arbitration bills in congress, the speakers were rather indefinite today as to what they expected to do for the great mass of railway workers. Federation leaders, however, said the primary object of the proposed affiliation is to bring about a universal eight-hour day.

Brotherhood leaders left here after the meeting undetermined as to what their next step would be.

William G. Lee, Warren S. Stone and L. E. Shepherd of the trainmen, engineers and conductors, returned to Washington and W. S. Carter, of the firemen, went to New York. Lee, who made the principal address sought to make it plain that the brotherhoods were not coming to the federation to obtain help specifically for their fight against the railroads over the Adamson eight-hour day law. He declared that the brotherhoods were willing to assume all responsibility in that struggle but he held that the time had come when it was to the interest of all railway workers to unite for their mutual advantage.

SNOW FALLS IN TEXAS

PLAINVIEW, Tex., Nov. 2.—Six inches of snow fell over the Texas plains country today and continued falling tonight. To the south in the vicinity of Dallas and Fort Worth rains were reported with the thermometer falling.

NEW SHAFT IS BEING SUNK ON SHAMROCK

(From Oatman Section Daily Miner)
At the Oatman Shamrock property in the Black Range section a new shaft is being sunk and other improvements made. The vein has been thoroughly prospected on the surface and found to be identical with that of the Black Range and Nellie properties.

The Shamrock is being developed and financed by men who are well known in mining and business circles on the coast and in Oatman. Col. C. M. Moss is president, M. A. Fessenden, vice-president and general manager; H. A. Culloden, auditor and secretary of the Pacific Electric company, secretary and treasurer, who, with W. J. Doran, general agent of the Union Pacific Railway company; John T. Wootan, general manager of the Amalgamated Oil company; Dr. H. H. Stone and W. A. Gordon, constitute the directorate.

It is the intention to sink the shaft to a depth of 600 feet as fast as men and machinery can do it. At this point the vein will be crosscut, and extensive development of the entire property will be carried out.

PERSONALS

(From Tuesday's Daily Miner.)
George W. Marks, who is visiting in Kingman, reports the election of Vital W. Garesche as judge of the Circuit Court of St. Louis. Mr. Garesche was a Kingman visitor a year or so ago and took a great interest in the good roads movement here.

George W. Marks, who took over the mines of J. C. Lane and J. W. Morgan, at Cerbat, departed for the properties this morning, where he will put men to work to complete the annual assessment work. Mr. Marks intends to remain here and look after his mining interests.

William Patterson of Tonopah, Nev., is one of the late arrivals here from that section.

William Woodman and wife are registered at one of the hotels from Des Moines, Ia. Mr. Woodman is one of the stockholders of the Southwestern Copper company at Copperville, this county.

Contractor Piening is fast getting into shape the improvements of the additions of the Citizens' bank building and it will not be many weeks before that bank will be able to extend itself into the new quarters.

Joe Ryan and C. R. Parrott came in from Oatman last evening to get in touch with a doctor for the father of Mr. Ryan, who is quite ill at that place. They returned to Oatman the same evening.

There was born to the wife of W. R. Stephens in this city Monday, a baby boy. Mother and child are doing well at latest report.

Mrs. Hoskins, who has been quite ill, is up and about again, after having spent several days confined to her home.

A. M. Cook, bookkeeper of the Kingman meat market, is confined to his home on account of illness and will likely be compelled to remain at home for several days yet.

Mrs. Esther McLoughlin of Oatman is registered at one of the local hotels.

F. P. and M. L. Stayaert of Phoenix, Ariz., are in Kingman.

The many friends of Mrs. Clarence Overmire will be pleased to hear of her recovery from a serious illness. She returned from a local hospital yesterday afternoon to her apartments at the Hotel Beale.

Norman F. Marsh, of Los Angeles, California, is visiting Kingman for a few days. Mr. Marsh is the architect who furnished the plans for the proposed high school building.

Among the Oatman people visiting Kingman are the following citizens: H. A. Sessions, E. D. Bowles, and Judge P. D. Overfield.

A. Brown is in Kingman from Mineral Park, coming down from that place yesterday.

Francis E. Wilkinson, Jr., and B. C. Vaughan, of Yuca, were in Kingman yesterday attending to business matters.

J. W. Prisk came in from Chloride to be present at the official count of the board of supervisors yesterday.

Miss Iva E. Shank is a visitor in this place from Chloride.

Edward Hedberg is a Kingman visitor from Cerbat, where he is employed and has been for the past many months.

TIE VOTE FOR SHERIFF, IS NEW ISSUE

(From Tuesday's Daily Miner)
A dead heat was declared by the board of supervisors in the count of the recent election of sheriff.

The tabulation of the votes cast at the general election instead of settling the uncertainty of who shall fill the office of sheriff for the next two years, simply complicates the matter, J. N. Cohenour and J. W. Prisk having tied for the place by a vote of 888 each. The two men were the only ones on the tickets to have been kept in doubt and the official count keeps them still on tenter hooks.

This is the first time, we believe, in the history of the county that a tie vote on any office has existed, although many officers have been declared elected by one vote. Just what will be done in the matter will have to be decided later, but it is probable that a recount of some of the precincts will be asked for by one or the other candidate.

The board of supervisors met yesterday morning, but owing to the failure of the Grand Gulch returns to arrive, the board wired to that place and ascertained that no polls had been held there. It was afternoon before the counting commenced and the finish of the count was not completed until late in the evening. No effort was made to complete the total tabulation, except on that of governor and sheriff.

The count showed that Governor Hunt had gained 38 votes, over the reported total as received by the Democratic county committee, and on which the vote of the state was predicted in the recent tabulations. As Campbell was reported to have but 40 votes over Hunt the majority will be clipped very close by the Mohave county returns. Hunt has a majority of 684 over Campbell.

Tomorrow the Daily Miner will give the totals of all the officers voted for in this county.

BUREAU OF MINES DESIRES SPECIMENS

(From Oatman Section Daily Miner)
The committee in charge of the Bureau of Mines mineral exhibit is anxious that specimens from all of the mines and prospects in the district be delivered to it not later than next Saturday. Engineer Ralph A. Meyer has volunteered his services in classifying the exhibits. Assays will be made and placed upon the exhibits as they are received.

The Black Range, Tom Reed, United Eastern and Times exhibits will be segregated in sections as will those of other properties. The committee urges that prospectors as well as mine owners send or bring in their samples. It is the intention to display specimens from every mine and prospect in the county, if it is possible to obtain them.

The general exhibit of ores will be maintained in a large store room next to the lobby of the St. Francis hotel. The room has already been completely overhauled and fitted up for the displays. The committee also desires photographs of mines and prospects.

NATIONAL BANKS MUST REPORT THEIR CONDITION
WASHINGTON, Nov. 21.—The comptroller of the currency today issued a call for the condition of all national banks at the close of business Friday, November 17.

MARKED SHORTAGE OF DWELLINGS IN NORWAY
CHRISTIANIA, Nov. 2.—The shortage of available dwelling houses, with still more serious prospects for the winter, is reported from various places in Norway. In certain districts city authorities have resorted to extreme measures to provide shelter for those unable to find houses. The city council of Bergen has begun to expropriate unoccupied houses, but the number of these is inadequate. The oldsmen of Trondhjem have requested authorization to expropriate not only vacant houses, but also clubrooms and similar localities. The Christiania authorities are considering the expropriation and use as dwellings of taverns and even places devoted to religious gatherings.

MINISTERS ASK DELAY, REFUSED
LONDON, Nov. 21.—A dispatch to Reuters Telegram company from Athens says the delay demanded by the Austro-German diplomats in their deportation from Athens has been refused, and that all of them will leave Athens Wednesday morning.

COOPERATIVE BUYING NEW MOVE BY UNIONS

(From Oatman Section Daily Miner)
The Oatman Central Labor Union, which is an affiliation of all Oatman Unions, has completed the organization of a Cooperative Buying Association, and W. E. Burton has been selected as manager of the association and he is now on the coast arranging for the first five-car shipment of groceries to Oatman. The Unions make the assertion that the cost of living has advanced thirty five percent in the past year and that the advance in wages has been less than twelve per cent. The services of a mathematician is necessary to ascertain how the wage earner is to make ends meet much longer with the steady increase in cost of living. This question bothered the Union heads for months before they decided upon the plan of a cooperative buying association.

The association is financed by its customers and the customer is everybody who wishes to avail themselves of the opportunity which the association offers in buying and delivering. The manager of the association will call on the consumers monthly and take their orders for any amount of provisions. He will collect the amount of the order and same will be delivered within the month.

The only advance in selling price over the wholesale price will be ten per cent which will pay the expenses of the manager and local deliveries. The manager is bonded in sufficient amount to the Central Labor Union to cover any shortage that might occur in his accounts. In this manner the unions of Oatman expect to cut the cost of staple groceries twenty-five per cent. Should the plan prove successful it will likely forestall a demand of higher wages in the district.

KNOTTY PROBLEM FOR FARM LOAN BOARD

AMARILLO, Tex., Nov. 21.—Are cattle an agricultural crop? This was the knottiest problem encountered by the federal farm loan board which heard farmers from three states here today urge that a farm loan bank be located in Amarillo.

"That is something we will have to work out" replied Commissioner George W. Norris to the New Mexican farmer who enquired. "You have raised a question that this board will have to study and that is just what does cultivation mean."

What the commissioners said were the biggest crowd that has attended any of the meetings since the hearings began today came from Oklahoma, New Mexico and Northwest Texas.

So large was the crowd that when the 500 seats in the federal court room had been filled and several hundred were unable to get in, Commissioners Quick and Lobdell conducted an overflow meeting in another building.

NEWSPAPER VETERAN DIES

EL PASO, Tex., Nov. 21.—Captain John I. Ginn, a veteran newspaper man of the west and southwest, died here today. He would have been 81 years old on Christmas day. He was editor of the Virginia City, Nev., Enterprise at one time and also worked on the San Francisco Argonaut. He was connected with local papers here for many years. He was a civil war veteran.

PUGS BATTLE TEN ROUNDS

RACINE, Wis., Nov. 21.—Joe Welling, a Chicago lightweight, won all the way over Ever Hammer, also of Chicago, in a 10-round match here tonight. In the eighth round Welling twice sent Hammer to his knees.

(From Oatman Section Daily Miner)
W. P. Wagg, of Los Angeles, H. H. Cole and E. K. Buckley, both of Fullerton, arrived in Oatman yesterday and are considering a deal on mining property which is said to run into a sum near \$50,000. These gentlemen are well known capitalists and mining men who have been identified with mining in many western camps.

PANAMA WILL PAY INDEMNITY CLAIM MADE BY THE U. S.

PANAMA, Nov. 1.—A bill in the national assembly of Panama to pay \$12,850, gold, to the estate of Ralph W. Davis of Los Angeles, killed in a riot on July 4, 1912, when Panama police fired with rifles on unarmed Americans, and to settle other claims of Americans wounded at the time, will apparently settle, after four years what has been a touchy matter between Americans and Panamanians. Indignation ran high among the Americans on the Canal Zone at the time of the tragedy, and this was not palliated by the failure of the Panama authorities to press investigation and take action against guilty parties. The belief has been widespread that the assault on the Americans found subsurface favor among the Panamanians and the delays in getting action by pressure from the United States caused many expressions of disgust and lack of faith in the Government's inclination to protect Americans.

It was in the investigation of this case that Judge Demosthenes Arosemena of the Criminal Court delivered an opinion which was an harangue against Americans and their soldiers, and found that one of the Panamanian police was at fault. This one had been dead a month at the time the opinion was delivered. This action on the part of Judge Arosemena was one of the circumstances prompting the American Minister to protest recently against his appointment as Attorney General.

By persistence the American Minister caused the Panamanian Government to admit the fault of its police and to promise indemnity. It demanded, however, that the amount of indemnity should not be fixed by the American government, but should be arbitrated. It proposed that one of the diplomats accredited to Panama should act as arbitrator. The United States agreed to the arbitration but not to a local arbitrator. In consequence, agreement was reached to submit the case to the Minister of The Netherlands in Washington, who is also accredited to Panama. His award was for the payment, in all, of \$12,500, and the bill has been introduced to comply with his decision. It passed the first reading unanimously.

In addition to Davis, who was a civilian, and had recently come into to city from a prospecting trip in Panama, Private Harry Morrissey, known also as Maurice and Morrissey, of the Tenth Infantry, was killed, dying on July 9 of wounds received on the fourth. Nine other Americans were wounded. In the investigation, the point has been raised that Morrissey was not an American citizen. This matter has not been settled, but no award for Morrissey is included in the decision of the arbitrator.

CHEMICAL FIRM GIVES BONUSES TO WORKERS

BALTIMORE, Nov. 21.—The Thomson Chemical corporation, manufacturers of sulphuric acid, today gave bonuses to all its employees ranging from five per cent to 17½ per cent of their wages. Men who made \$30 a week received \$300. There are several hundred employees.

KANSAS BANKER IN KINGMAN

(From Wednesday's Daily Miner.)
Fred W. Freeman, of the Merchants National bank of Topeka, Kan., arrived in Kingman last evening to look after mining interests in the Stockton Hill country. Mr. Freeman is interested in the Cupel and de la Fontaine mines which are under negotiation with the American Smelting & Refining company.

Mr. Freeman last May predicted the defection of Kansas to Wilson, and he evidently knew what he was talking about, as Kansas gave her electoral vote to the president and by such an overwhelming majority that there cannot be any disputing the people's intention.

All local merchants should advertise in the Daily Miner and keep Mohave county money at home.

NEEDLES BOOSTERS TO VISIT OATMAN

(From Oatman Section Daily Miner)
A delegation of Needles boosters, numbering 50 or more, will come to Oatman next Saturday in response to an invitation extended by the Oatman Bureau of Mines. The Californians pledged their support to the local publicity campaign at a banquet tendered the Oatman Bureau of Mines' members by them last Thursday evening at Needles.

The visitors will be banqueted here and shown the producing mines as well as the promising properties. Many of them are familiar with mining here but have not looked the district over for some time.

After the visit of the Californians, the Oatman Bureau of Mines boosters will make trips to Kingman, Chloride and other Mohave county cities for the purpose of interesting them in the publicity campaign which is not alone for Oatman but the entire county.

All local merchants should advertise in the Daily Miner and keep Mohave county money at home.

Exceedingly Low

Prices on remarkably high grades of wall papers are submitted to the buying public at this establishment.

The reason is not hard to seek. We buy in quantities sufficiently large to enable us to sell at prices to suit the smallest needs.

We also have a sale on old paper.
